**Re: 2004Q-0151 Qualified Health Claim (QHC):
Soy Protein and Cancer**

Dear Ms. Anderson:

This letter is to request a meeting with your group to discuss the Solae health claim petition 2004Q-0151 and our comments to that petition. On June 14, 2004, the Weston A. Price Foundation submitted its comments to the FDA on the Solae health claim regarding soy protein isolate and cancer. In a submission to the FDA dated August 17, 2004, Solae provided a rebuttal to our comments. We are in the process of responding to this rebuttal and will forward our comments to you in early January, 2005. We wish to discuss our concerns with you in such a meeting.

In addition, Solae requested a health claim labeling change on October 20, 2004. In that letter, Solae requested a meeting with you to discuss the status of their petition and their rebuttal to our comments. If that meeting has not taken place, we request that we be in attendance at that meeting. If the meeting has already taken place, then we request a transcript of the meeting.

We thank you for considering to our concerns regarding this petition. We look forward to meeting with you.

Sincerely yours,

Sally Fallon
President
